Medication Reconciliation Record

Example Community Medical Center • Record TEST-MED-7781

Patient: Alex Morgan (fictional) **Patient ID:** TEST-2048

Date of Birth: 1985-04-12 (fictional) **Document Date:** 2026-10-20

Facility: Example Community Medical Center (fictional)

Medication Reconciliation Record

Record date: 2026-10-20. This is a fictional medication-list example created to test extraction and citation behavior. It is not a valid prescription.

Reported medication list

Medication (fictional record)	Recorded details	Status
Vitamin D3	1000 IU capsule; once daily per patient-reported list	Patient-reported
Cetirizine	10 mg tablet; as needed for seasonal allergy symptoms per patient-reported list	Patient-reported
Metformin	Not listed	No entry in this sample

Allergy information

No known medication allergies recorded in this fictional sample. This means the sample contains no allergy entry; it should not be interpreted as verified real-world allergy status.

Medication-related note

No new medication, dosage, or treatment was prescribed in this document. The assistant should answer medication-list questions by quoting this record and should not infer a treatment plan.

Question-answering test facts
