Follow-Up Laboratory & Medication Review

Example Northview Health Clinic • Record TEST-FU-8842

Patient	Jordan Lee (fictional)	**Patient ID**	TEST-3117
Date of Birth	1978-09-23 (fictional)	**Document Date**	2026-10-24
Facility	Example Northview Health Clinic (fictional)	**Visit Type**	Routine follow-up sample

Fictional sample created for PDF extraction, retrieval, citation, and answer-generation testing. Not a valid medical record, prescription, or clinical recommendation.

1. Follow-Up Notes

The fictional patient attended routine follow-up and reported occasional morning headaches and reduced energy after long workdays for approximately two months. The patient also reported drinking fewer fluids during work hours. The sample does not document fever, vomiting, chest discomfort, or recent fainting. These statements are patient-reported and not independently verified.

Recorded observations: blood pressure 134/86 mmHg; pulse 72 beats/min; temperature 36.7 °C; respiratory rate 15/min; oxygen saturation 99%; weight 81.2 kg. Height and BMI are not recorded.

2. Laboratory Results

Test	Result	Example reference interval	Record flag
Sodium	139 mmol/L	135–145 mmol/L	Within example interval
Potassium	4.2 mmol/L	3.5–5.1 mmol/L	Within example interval
Hemoglobin	13.8 g/dL	12.0–16.0 g/dL	Within example interval
White blood cell count	6.7 × 10■/L	4.0–11.0 × 10■/L	Within example interval
Platelets	248 × 10■/L	150–400 × 10■/L	Within example interval
TSH	3.1 mIU/L	0.4–4.0 mIU/L	Within example interval
Vitamin B12	284 pg/mL	200–900 pg/mL	Within example interval
Ferritin	34 ng/mL	15–150 ng/mL	Within example interval

Reference ranges are illustrative for software testing. The document does not state that results establish or exclude a diagnosis. No result is marked critically abnormal.

3. Medication Review

Medication	Recorded details	Status
Magnesium oxide	250 mg tablet; once nightly; patient says used as dietary supplement	Patient-reported
Loratadine	10 mg tablet; once daily as needed for seasonal nasal symptoms	Patient-reported
Omeprazole	20 mg capsule; listed before breakfast; start date not recorded	Source not specified
Ibuprofen	Occasional use for headache; dose and frequency not recorded	Patient-reported; incomplete
Amlodipine	Not listed in this sample	No entry in sample

4. Allergy and Treatment Documentation

The allergy section states: “Allergy review not completed in this sample.” This is not equivalent to a verified absence of medication allergies. No new prescription, medication discontinuation, dosage change, or clinician-authored treatment plan is recorded.

5. Extraction and QA Test Facts

• Symptoms: occasional morning headaches and reduced energy after long workdays, about two months.

• Patient reports drinking fewer fluids during work hours.

• Observations: BP 134/86, pulse 72, temperature 36.7 °C, respiratory rate 15, oxygen saturation 99%, weight 81.2 kg.

• Laboratory tests: sodium, potassium, hemoglobin, WBC, platelets, TSH, vitamin B12, ferritin.

• Magnesium oxide: 250 mg nightly, patient-reported supplement.

• Loratadine: 10 mg daily as needed, patient-reported.

• Omeprazole: 20 mg before breakfast; start date not recorded; source unspecified.

• Ibuprofen: occasional patient-reported use; dose and frequency incomplete.

• Amlodipine: not listed in this sample.

• Allergy review not completed; no new prescription or medication change documented.

QA instruction: Distinguish patient-reported information, entries with unspecified source, missing entries, and information not assessed. Do not infer diagnoses, prescriptions, or allergy status beyond what is explicitly recorded.
